OFFERS YOU AN OPPORTUNITY TO UNDERGO

## PEDIATRIC ADVANCED LIFE SUPPORT (PALS) COURSE

The AHA's Pediatric Advanced Life Support (PALS) course is a 2 day course that aims to improve outcomes for pediatric patients by preparing healthcare professionals to effectively recognize and intervene in patients with respiratory emergencies, shock, arrhythmias, and cardiopulmonary arrest by using high-performance team dynamics and high-quality individual skills.

### The course content includes:

- Perform high-quality cardiopulmonary resuscitation (CPR) as per AHA basic life support (BLS) recommendations.
- Recognition of patients who do and do not require immediate intervention.
- Recognition of cardiopulmonary arrest early and initiation of CPR within 10 seconds.
- Apply team dynamics.
- Differentiation between respiratory distress and failure.
- Early interventions for respiratory distress and failure.
- Differentiation between compensated and decompensated (hypotensive) shock.
- Early interventions for the treatment of shock.
- Differentiation between unstable and stable patients with arrhythmias.
- Clinical characteristics of instability in patients with arrhythmias.
- Post-cardiac arrest management.
