SYMBIOSIS INTERNATIONAL (DEEMED UNIVERSITY)

Symbiosis International (Deemed University) is a multi-disciplinary university offering its students and faculty a vibrant learning ecosystem designed around its multi-cultural and innovative ethos.

Established in 1971 by Prof. Dr. S.B. Mujumdar, Symbiosis is a 'home away from home'. The Institution is based on the principles of Vedic thought of "World as One Family". The University's name fittingly captures the quintessence of the relationship with International students; a mutually beneficial bond between India and the International student community. Campuses of Symbiosis, spread across 4 states and 6 cities in India, are resplendent with the activities and students from more than 85 countries. All campuses epitomize the Symbiosis vision of 'Promoting International Understanding through Quality Education' and are a beehive of international students from all across the globe, being privy to Indian culture and hospitality.

Symbiosis International (Deemed University) offers programmes across eight faculties, viz. Law, Management, Computer Studies, Medical & Health Sciences, Media and Communication, Humanities and Social Sciences, Engineering and Architecture and Design. SIU has 40 Constituents, 11 Research Centers, 10 Support departments and 10 Departments of Skills & Continuing Education.

The University has been ranked 32nd by the National Institution Ranking Framework. It is ranked amongst the top 350 universities in Asia by QS Asia World University Rankings Survey and is also ranked amongst the top 1000 universities in the world by the Times Higher Education (THE) World University Ranking 2022.

Symbiosis International (Deemed University) is committed towards generation of knowledge, innovations and its contribution towards the development of the Nation.

FACULTY OF MEDICAL & HEALTH SCIENCES (FoMHS)

Faculty of Medical & Health Sciences (FoMHS), a proud constituent of SIU, is a conscious response to the growing concerns regarding healthcare delivery and education including training of healthcare professionals across all cadres. The FoMHS offers on campus fulltime and online education programs meant to professionally upgrade the healthcare professional. Through its unique, innovative, career oriented programmes, FoMHS plans to raise a cadre of professionals who would ensure delivery of optimum health care services with the ultimate objective of creating a healthy world.

SYMBIOSIS CENTRE FOR HEALTH SKILLS (SCHS)

Symbiosis Centre for Health Skills is a multidisciplinary educational facility that provides training for skilling, up-skilling and re-skilling of healthcare professionals using part task trainers, and high-tech Simulation. It provides competency driven teaching, along with training and assessment for healthcare professionals across all cadres in both clinical and allied specialties.

The broad objective is to align with the National Agenda of Skill Development, Government of India to create a robust and vibrant eco system for quality education and skill development to ensure optimum healthcare delivery.

SCHS enjoys the coveted dual status of an International Training Centre (ITC) of the American Heart Association and a “Chapter” status of the International Trauma life support Organization, USA. SCHS has been recognized as an approved site to conduct Advanced Trauma Life Support India Program, a course, of The American College of Surgeons and has collaborated with the Royal College of Surgeons, England to conduct Intercollegiate Basic Surgical Skill course (BSS) and Care of the Critically Ill Surgical Patient (CCrISP®).

Recently, SCHS has collaborated with the Neurocritical Care Society (NCS), USA to conduct Emergency Neurological Life Support (ENLS) course and with American Academy of Family Physicians (AAFP) to conduct Basic and Advanced Life Support in Obstetrics (BLSO & ALSO) courses. SCHS has trained 1.5 Lakh Healthcare Providers till date.

About SymSim:

The International Conference on Simulation in Healthcare, organized by SCHS focuses on incorporating Simulation as a pedagogy of academic instruction and assessment in the training of all healthcare professionals, across all cadres, both in clinical as well as non-clinical domains through an inter-professional approach. It shall act as an effective platform for novice and seasoned simulation educators to share notions, explore innovative technologies to transform learners' experiences and present the future of simulation in healthcare in India and globally thus ensuring that simulation becomes a vital tool and an important pedagogical approach for preparing healthcare professionals in providing patient care in a collaborative team environment.

This Conference is a two-day event, with the first day concentrating on generic concepts in Simulation and the second day focusing on applications of simulation in varied clinical disciplines by bringing members of the healthcare team together in a simulated environment enabling 'team training' to explore communication, decision-making, judgment and leadership skills. It will help create better professionals who are less likely to commit errors in patient care.

Delegate Profile:

Doctors of all clinical specialties, General Practitioners, Nurses, Allied Healthcare Professionals, Policy makers & administrators, Representatives of Public and Private Healthcare sector organizations, Representatives of Civil Society Organizations, Representatives of the Pharma sector will be participating.

USPs of the event:

- A bouquet of lectures and interactive sessions catering to all cadres of healthcare professionals.
- Hands-on training using High & low fidelity simulators, including complete set of imported Adult and Paediatric manikins, part task trainers, virtual dissection table and trauma infrastructure.
- State-of-the art infrastructure including AV Aids and Debriefing Centre.
- Internationally qualified faculty.
- Effective platform to transform learners' experiences and make them patient ready.
- Integrating research with current best practices offering platform for young budding professionals to share their research with peers and experts.

About Pune and How to Reach

Pune, the cultural and educational capital of the Indian State of Maharashtra is also known as ‘The Oxford of the East’ due to the presence of several well-known educational institutions. The city has emerged as a major educational hub in recent decades, with nearly half of the total international students in the country studying in Pune.

Pune, is a bustling metropolis with an estimated population of about 7 million spread over 138 sq. kms. It is situated at an altitude of 559 meters above sea level. It has been ranked as one of the most liveable cities in India several times. The temperatures ranges from 15⁰ C to 35⁰ C with an average rainfall of 68 cm.

The city has an excellent cosmopolitan mix catering to the largest number of student population in India coming from different states & cultures. With its safe and secure living conditions the abundant night life options of the city provide a welcome option for students.

Pune is well connected with National Highways, Express Highways leading to Mumbai, Bangalore, Hyderabad, Ahmedabad and other major cities. Pune railway junction has connectivity with almost all parts of the country. Pune International Airport provides air connectivity to all major airports in India.

About SIU, Lavale

Pune city on the banks of Mula and Mutha river has been ranked as “the most livable city in India” several times. It is widely regarded as the top “automobile and manufacturing hub of India” and is also known as the Oxford of the East with the presence of a wide range of educational institutions. Symbiosis being an integral part of the city shares the same culture and values in hospitality.

Symbiosis – Lavale campus is rich in scenic ambience, spread across 350 acres having biodiversity in nature with two bandharas (water storage reservoirs) of total storage capacity of about 30,00,000 liters of freshwater and home to more than 191 species of birds, butterflies, reptiles, amphibians and mammals. The University has developed three butterfly gardens and saplings of more than 200 food plants and nectar plants. Around 40 species of butterflies and many types of moth species are seen on the campus.
